Captain Mallison C. Schepps,
24th Infantry,
A & R Officer,
Fort Benning, Ga.

Dear Sir:

I have just returned from our League Meeting where we decided the opening date for the Negro National League Baseball this year, which enables me to make plans for my training period.

I would appreciate it if you would explain to me more clearly about the offer you have made for the Eagles to train in Fort Benning. You said the charge would be \$2.50 per week per man and they could only stay one week and we would play some Exhibition games. I would like to know whether you meant the exhibitions games would be played during the first week of our arrival, or if we would be permitted to stay a week and then play exhibitions games the following week. If the games will be arranged during the first week we arrive it will, of course, be necessary for me to spend a week or two some where else to get in condition. I will appreciate very much if you will send me this information at once and I will answer immediately and let you know what week I would like to come.

Very truly yours,

AM:CCJ
